DESIGN ENGINEER · UFA · REMOTE

Denis Gazutdinov

I design and build products, from interface to working code

Master of Design with honors and an engineer with CAD and BIM experience. I make interfaces and motion, automate engineering workflows and bring AI into everyday work.

10+ years
in design, video and content

Master's
in Design with honors (2026)

2 products
designed and built by me: a portal and a Help Desk

02 / EXPERIENCE

Work Experience

2016 — present
10+ years

Graphic Designer, Video Editor, Motion Designer, Content Maker

Freelance

Brand identity and visual concepts

Project: Developed brand concept and presentation for psychologist Anna Lebedeva.
Result: A cohesive and professional brand identity that helped increase recognition and audience trust.

Video content and motion design

Project: Produced a promotional video for the concert tour of the band "Ruki Vverh".
Result: An energetic and stylish promo video that helped attract attention to the tour.

Project: Created animated videos and subtitled content for the educational platform Skillbox.
Result: High-quality educational videos praised for clarity and visuals.

July 2025 — July 2026
1 year

CAD Specialist

LLC PC USPTU "NEFTEGAZENGINEERING" · Information Technology

Main responsibilities

- Administration and configuration of CAD systems (AutoCAD, SmartLep)
- Technical support for CAD users
- Development of standards and templates for design work
- Support of the parallel design system
- Development of software for BIM design
- Training employees to work with AutoCAD and other CAD tools

Project: Developed a program to automate project launch workflows for chief project engineers.
Result: The application was built with .NET and C# using Windows Forms UI. It provides drawing attachment via external references, directory creation, object registry updates, and authorship tracking. Productivity in CPE departments increased by 65%.

Project: Created a script for automated distribution of CryptoPro CSP license keys.
Result: The script was built in C#, connects to user PCs over the subnet, validates license keys from .csv files, and reinstalls .msi packages with license binding.

September 2022 — July 2025
2 years 10 months

Engineer, Designer (part-time)

LLC PC USPTU "NEFTEGAZENGINEERING"

Main responsibilities: Development of working and design documentation for overhead power lines.

Additional projects

- Participated in planning and design for the company's internal portal
- Created a user interface for AutoCAD using Visual Lisp
- Actively contributed to BIM automation projects

February 2022 — June 2022
5 months

Design Engineer

LLC "RN-BASHNIPINEFT"

Development of working and design documentation for a packaged switchgear unit (BKRU).

June 2018 — August 2019
1 year 3 months

Video Editor

Magic World Cinema

Performed final editing (scene cuts, transitions, story pacing), basic color correction, and audio work.

03 / SKILLS

Skills

I constantly explore new technologies and design trends, including AI tools.

PROFESSIONAL SOFTWARE

Adobe Premiere Pro · After Effects · Photoshop · Illustrator · InDesign · Figma · Tilda · AutoCAD · Visual Studio · VS Code

AI TOOLS

ChatGPT · Gemini · Perplexity · Midjourney · Llama.cpp · Qwen · Deepseek · LM Studio · OpenCode · Local model deployment

PROGRAMMING

Visual Lisp · Vibecoding · Beginner C# · HTML · CSS · JavaScript · .NET · Node.js · Blazor · SQL

04 / EDUCATION

Education

2023 – 2026 · Master's degree with honors

Ufa State Petroleum Technological University

Institute of Economics and Service, Design. Graduated in January 2026.

2017 – 2021 · Bachelor's degree

Ufa State Aviation Technical University

Faculty of Avionics, Electric Power Engineering and Infocommunications, Electric Power and Electrical Engineering.

Now · college

Web development

Studying web development alongside work.

PROFESSIONAL DEVELOPMENT

2025

SmartLEP Software Training Course

Completed a course by JSC "Russian CAD"

2021

FSBEI HE "USATU", Department of Electromechanics

Electrical personnel
